

INTERIOR DESIRES:

Get Organized!

HIP NEW TRENDS IN HOME AND INTERIOR DESIGN FROM AN INDUSTRY INSIDER.

WRITTEN BY MICHAEL BUNN

1 SAVANNAH HARDSCAPES Dining al fresco has led to cooking al fresco. The moveable feast has moved to the great outdoors, and Savannah Hardscapes leads the way with a full range of outdoor appliances to make your outdoor entertaining sizzle. Whether you intend to grill it, smoke it, wok it, cook it on a rotisserie or in an oven, there's an outdoor kitchen appliance for the job. There are warming drawers to keep your food fresh after it comes off the fire and outdoor hoods to keep the fresh air fresh. There's a full line of refrigerated storage and dispensers to make sure your favorite brew or nicely aged Chardonnay stays at the perfect temperature. All you need for a perfect backyard outing are some wonderful guests and a day of sunshine. SAVANNAH-HARDSCAPES.COM

2 FOUNTAINS 'N' SUCH With today's challenging economy, people are spending more time at home and many have discovered that water features can provide relaxation while enhancing the environment, creating a much-needed oasis in their backyard. For nearly a decade Fountains'n'Such has been providing a wide range of creative options from residential fountains to larger projects including the new interactive fountain at Forsyth Park. With a variety of fountains to fit any budget, Fountains'n'Such is just the ticket to create an inviting and welcoming refuge. FOUNTAINSNSUCH.COM

3 YEAR ROUND POOL The latest wave in the swimming pool industry is "green," environmentally friendly and cost-effective products. People are looking for alternatives to chlorine to use as a sanitizer. Year Round Pool Company offers the Jandy Aqua Pure and Aqua Link saltwater sanitizing systems

for pools and spas. Saltwater swimming pool systems have a saline level similar to eye drops so they are easy on the eyes and skin. ACE saltwater sanitizing systems are also available for self-contained spas. While many people love saltwater pool systems, until now the technology has not been a viable option. YEARROUNDPOOL.COM

4 PACE LIGHTING Exterior lighting offers many benefits to homeowners. A well-lit home is safer and more secure, illuminated steps and pathways help prevent accidents in the dark, and strategically placed lighting can create the right mood for an outdoor soiree. Lighting at night also showcases your home and surrounding property, and Pace has all the equipment and know-how to key in on architectural features to create a visually interesting space.
